Grey Wolf	<i>Canis lupus</i>			G4
SPECIES OF SPECIAL CONCERN (cont.)				

Mammals (cont.)

Pale Townsend's Big-eared Bat	<i>Plecotus townsendi pallescens</i>	A	C	G4
White-tailed Prairie Dog	<i>Cynomys leucurus</i>	A	C	G4
Southwestern River Otter	<i>Lontra canadensis sonora</i>	A	C	G5
Long-eared Myotis	<i>Myotis evotis</i>		C	G5

Fish

Flannelmouth Sucker	<i>Catostomus latipinnis</i>	A	C	G3
Roundtail Chub	<i>Gila robusta</i>	A	C	G3

Plants

Alcove Rock Daisy	<i>Perityle specuicola</i>	A?	C?	G1	Canyonlands
Biscuitroot	<i>Lomatium latilobum</i>	A	C?	G1	
Cisco Milkvetch	<i>Astragalus sabulosus</i>	A?	C?	G1	
Entrada Rushpink	<i>Lygodesmia entrada</i>	A	C?	G1	
Isely's Milkvetch	<i>Astragalus isleyi</i>	A?	C?	G1	
Jane's Globemallow	<i>Sphaeralcea janeae</i>		C		G1
Johnston's Cryptanth	<i>Cryptantha johnstonii</i>		C?	G1	
Pinnate Spring Parsley	<i>Cymopterus beckii</i>		C		G1
Trotter Oreoxis	<i>Oreoxis trotteri</i>	A	C?	G1	
Alcove Bog Orchid	<i>Platanthera zothecina</i>	A	B	C	G2
Alcove Death Camas	<i>Zigadenus vaginatus</i>	A	B	C	G2
Fisher Milkvetch	<i>Astragalus piscator</i>			C	G2
Howell Scorpionweed	<i>Phacelia howelliana</i>	A		C	G2
Kachina Daisy	<i>Erigeron kachinensis</i>		B		G2
Brittle-Fern	<i>Cystopteris utahensis</i>			C?	G3
Helleborine	<i>Epipactus gigantea</i>	A	B	C	G3
Rydberg Thistle	<i>Cirsium rydbergii</i>	A	B	C	G3
Abajo Penstemon	<i>Penstemon lentus</i> var. <i>ablbiflorus</i>			C?	G4
Spiny Gilia	<i>Gilia latifolia</i> var. <i>imperialis</i>			C?	G4

GLOGAL RANK

The Global (G) Conservation Status (Rank) of a species or ecological community is based on the rangewide status of that species or community. The rank is regularly reviewed and updated by experts, and takes into account such

factors as number and quality/condition of occurrences, population size, range of distribution, population trends, protection status, and fragility. The definitions of these ranks, which are not to be interpreted as legal designations, are as follows:

- G1** Critically Imperiled: At high risk of extinction due to extreme rarity (often 5 or fewer occurrences), very steep declines, or other factors.
- G2** Imperiled: At high risk of extinction due to very restricted range, very few populations (often 20 or fewer), steep declines, or other factors.
- G3** Vulnerable: At moderate risk of extinction due to a restricted range, relatively few populations (often 80 or fewer), recent and widespread declines, or other factors.
- G4** Apparently Secure: Uncommon but not rare; some cause for long-term concern due to declines or other factors.
- G5** Secure: Common; widespread and abundant.

Some species with a secure global rank are listed here due to local presence and a documented loss of population size in the region.
